

**Amendment to CDC Protocol # \_\_\_\_\_**  
**Proposed Genetic Research**  
**Submitted [Date]**

As part of the above protocol, investigators within CDC propose to conduct the following genetic research:

1. Proposed genetic research:
  
  
  
  
  
  
  
  
  
  
2. Justification of why this testing is important in our efforts to understand the causes of the disease(s) under study:
  
  
  
  
  
  
  
  
  
  
3. Is this test of clinical significance? ☐YES ☐NO  
Explain.
  
  
  
  
  
  
  
  
  
  
4. If the answer to question #3 is YES, what additional efforts that concern protection of the human participants will be made by the investigators?
  
  
  
  
  
  
  
  
  
  
5. Other information related to this research which may be important to the IRB (if any):
